Attachments: 71995-37-20180514_bb1.sla.pdf

Good afternoon, Ona,

Attached is a review of the proposed label amendment for MON 78736 Herbicide ML. Please feel free to contact me with any questions in regard to this review. Email is the best way to contact me since I am working afternoons and evenings from home at this time.

You can send a clean and highlighted version of the revised label directly to me in response to this email.

Thank you for your patience.

Beth Benbow

Thanks Emily,

We're glad to hear she's still part of the team. We really appreciate your prompt response and look forward to an update from Beth.

Kindest Regards, Ona

Hi Ona,

Luckily for us, Beth is actually still with our branch. She works part time at night but is still the reviewer assigned to this action. I have copied her so she can reply with an update.

Best regards,
Emily

Hi Emily,
I understand from James your team was recently reorganized and unfortunately it appears Beth Benbow is no longer part of the PM25 reviewer team. This Master Label Amendment (**EPA# 71995-37**) had been assigned to Beth at the end of November; however I had not received any feedback beyond her reply below. For clarification, we hadn't made any changes to the label submitted 5/14/2018; I had only included the cover memo in the email to Beth for reference. Therefore, I wanted to follow-up with you directly on the status and which reviewer this action may have been transferred. We understand your team is significantly understaffed, but we really need to be able to implement revised labels in the market.

Please reach out to me directly if you have any questions. As always, thanks in advance for your assistance.

Kindest Regards, Ona

Thank you Ona,
I will review this latest version of the label and get back to you when possible.

Regards,

Beth Benbow

Good Morning Beth,

I'm reaching out to you regarding the status in your queue of the pending Master Label amendment **EPA# 71995-37** submitted **5/14/2018**. We would like to implement revised labels for this residential concentrated non-selective herbicide product consistent with the corresponding ready-to-use product **EPA# 71995-36**, which was previously approved by the Agency **5/22/2017**. Please note the key revisions are outlined in the attached cover memo, many of which are the same as the current EPA# 71995-36 master label.

Please reach out to me directly if you have any questions. As always, thanks in advance for your assistance.

Kindest Regards, Ona

Thanks Emily,
I'll follow-up with Beth next week, which will give her a chance to add it to her queue. Appreciate your quick response.

Kindest Regards, Ona

Hi Ona,

This one has just been assigned to Beth Benbow. She hasn't had a chance to log it in yet but I know her backlog isn't too bad so she should be able to get to it fairly soon.

I hope this helps.

Best regards,
Emily

Good Afternoon Emily,
I wanted to follow-up with you on the status of a pending Master Label amendment **EPA# 71995-37** submitted **5/14/2018**. We understand that your team is short staffed and there's a significant backlog of non-PRIA fast track amendments. However, we would like to implement revised labels for this residential concentrate product consistent with the corresponding ready-to-use product EPA# 71995-36, which was previously approved by the Agency 5/22/2017.

Any feedback regarding the expected timing would be helpful to share with our business folks. I've included the ePortal CDX information below and attached the cover memo. Please let me know if you have questions.

As always, thanks in advance for your assistance. Kindest Regards, Ona
